SUMMARY

AI & ML student with hands-on experience building real-world systems across machine learning, IoT, and full-stack development. Strong problem-solver with a bias for action, experienced in leading projects end-to-end and delivering working solutions. Exploring GenAI tools to automate workflows and improve content production systems.

EDUCATION

B.L.D.E.A'S V.P DR. P.G. Halakatti College Of Engineering & Technology 2022 – 2026
BE in CSE (AI & ML) | CGPA: 7.8

SKILLS

Programming: Java
Web: React.js, JavaScript, MySQL, MongoDB
Tools: Figma, Power BI, Google Colab, VS Code

AI & AUTOMATION EXPERIENCE

- Exploring GenAI tools (ChatGPT, prompt engineering) to automate workflows and improve productivity.
- Built AI-based systems like emotion recognition and speech translation using deep learning techniques.
- Interested in applying AI to real-world systems like content generation and process automation.

PROJECTS

Automated Soil Moisture System (IoT & ML) Arduino, ML

- Designed and implemented an IoT-based irrigation alert system using real-time data monitoring.
- Improved water usage decisions by integrating sensor-based insights with ML concepts.
- Demonstrates ability to build end-to-end systems combining hardware and software.

Real-Time Emotion Recognition System CNN, OpenCV

- Built a CNN-based model to detect human emotions in real-time using OpenCV.
- Applied AI for understanding user behavior and enhancing interactive systems.

Speech-to-Speech Translation System NLP, ASR, TTS

- Designed a pipeline for real-time speech translation using NLP and deep learning techniques.

EXPERIENCE

Java Full Stack Intern Feb 2025 – Apr 2025
Infosys Springboard

- Developed SmartShelfX, an inventory forecasting and auto-restock system.
- Built backend services using Spring Boot and MySQL; designed UI with ReactJS.
- Collaborated with team members to deliver project modules within deadlines.

Cloud Computing Intern Nov 2025 – Present
Airowire Pvt Ltd

- Worked on cloud-based applications and explored AI tools and access control systems.
- Gained hands-on experience with scalable systems and cloud platforms.

LEADERSHIP & ACHIEVEMENTS

- Led academic projects by coordinating team members and ensuring timely execution.
- Secured 1st Prize in DBMS Project Exhibition.
- Won 1st Prize in ML + MES Project Presentation.

CERTIFICATIONS

Infosys Springboard: Java Full Stack Development
HackerRank: C++ & Python
FreeCodeCamp: Responsive Web Design
